EDUCATION BACKGROUND

Institut Teknologi Sepuluh Nopember | Surabaya, Jawa Timur
Bachelor's in Informatics Engineering | GPA: 3.91/4.00 | 2025 - Present

ACHIEVEMENTS AND AWARDS

2nd Place Winner Indonesian Robotic Olympiad (IRO) | Sep, 2018
Mikrobot and ROBOKidz | National Level

Robot Performance Award CK National Competition | Aug, 2018
CK Education | National Level

5th Place Winner Indonesian Robotic Olympiad (IRO) | Aug, 2017
Mikrobot | National Level

Excellence Award World Robotic Olympiad (WRO) INDIA | Nov, 2016
World Robot Olympiad Association, India STEM Foundation, National Council of Science Museums India | International Level

2nd Place Winner Indonesian Robotic Olympiad (IRO) | Sep, 2016
Mikrobot and ROBOKidz | National Level

1st Place Winner Robotic Competition | May, 2016
KALCare | Regional Level

Second Winner Robotic Competition | Nov, 2015
IT FUN FESTIVAL | Regional Level

PROFESSIONAL EXPERIENCE

PT Tripandawa Kencana Utama | Jakarta Selatan, DKI Jakarta
Founding Lead Developer | Jun, 2025 - Present (Part-time/Project-based)

- Led the development and launch of the company's first corporate website (padelix.co.id), managing the complete project lifecycle from initial planning through final deployment and quality assurance testing.
- Implemented advanced SEO techniques and optimization strategies that successfully positioned the website at the first rank in search results for "Padelix Indonesia", significantly improving online visibility and brand recognition.
- Coordinated with business owner to ensure website functionality aligned with corporate requirements and established technical standards for ongoing maintenance and content management.
- Developed comprehensive SEO strategy documentation and performance monitoring protocols to support sustained search engine ranking performance and measurable digital marketing outcomes.

PT Delta Laras Wisata | Jakarta Selatan, DKI Jakarta
Digital Transformation Consultant | Oct, 2024 - Present (Consultancy)

- Revitalized the company's website architecture through comprehensive technical restructuring and optimization strategies, resulting in a documented 10x increase in visitor traffic and improved user engagement metrics.
- Designed and executed structured SEO strategies that enhanced website performance, search engine visibility, and digital audience reach through targeted keyword optimization and technical improvements.
- Managed comprehensive digital marketing campaigns including Meta Ads implementation for brand expansion and user acquisition, supporting measurable growth in online presence and customer base development.
- Collaborated with the business owner, former CTO, and external vendors to ensure seamless integration of new architecture with existing business operations and maintained consistent website performance monitoring.

PT Bank Amar Indonesia | Jakarta Selatan, DKI Jakarta
Software Engineering Intern | Jun, 2022 - Nov, 2022

- Developed a functional payment report dashboard for SLIK (Credit Information Sharing System) using PHP and Slim Framework, completing the project within the allocated 3-month timeline and meeting all technical specifications.
- Coordinated effectively with the Head Developer and development team members to ensure project alignment with company infrastructure requirements and maintained consistent progress throughout the development cycle.
- Implemented database integration and user interface components that supported accurate financial reporting, data visualization, and secure access control for internal team usage and operational efficiency.
- Conducted thorough testing and quality assurance processes to ensure dashboard reliability, data accuracy, and compliance with banking industry standards for financial information management systems.

LEADERSHIP & ORGANIZATION EXPERIENCE

Organisasi Siswa Intra Sekolah | Jakarta Selatan, DKI Jakarta
Head of Etiquette Division | Sep, 2023 - Aug, 2024

- Designed and implemented several innovative work programs that successfully revitalized school etiquette awareness and student behavior standards, working collaboratively with all division members to complete planning within one week.
- Established the Etiquette Division as a model of proper conduct and behavior throughout the one-year term, demonstrating consistent leadership in promoting respectful communication and positive school culture among students.
- Coordinated with school administration and other student organization divisions to integrate etiquette programs with broader school initiatives, ensuring sustainable implementation and measurable improvement in student conduct.
- Developed comprehensive training materials and mentorship activities that supported peer-to-peer learning and helped establish lasting etiquette practices within the school community environment.

Projek Penguatan Profil Pelajar Pancasila | Jakarta Selatan, DKI Jakarta
General Chairman and Business Unit 1 Head of Student Cooperative | Oct, 2022 - Dec, 2022

- Designed the cooperative's Articles of Association (AD-ART) in collaboration with all cooperative members (class members) within one week, establishing clear governance structure and operational guidelines for student-led business activities.
- Created an independent financial recording and sales tracking system using Excel, enabling accurate transaction monitoring, inventory management, and comprehensive financial reporting for cooperative operations.
- Achieved total revenue of 4.5 million IDR and net profit of 1.5 million IDR from initial capital of 1 million IDR, demonstrating effective business management with a 50% return on investment within the project timeframe.

RESEARCH EXPERIENCE

Tim Riset Robotik Bayucaraka | Surabaya, Jawa Timur
Programming Staff, Technology Development Division | Mar, 2026 - Present

- Enhanced Ground Control Station (GCS) software functionality by adding new features and improving system stability, contributing to more reliable unmanned vehicle operation and control capabilities for research applications.
- Participated in the development and testing of new aircraft prototypes, supporting experimental design evaluation and performance optimization through systematic testing protocols and technical analysis.
- Collaborated with research team members to implement software improvements that enhanced operational efficiency and supported advanced robotics research objectives within the university research environment.
- Contributed to Unmanned Aerial Vehicle (UAV) research through programming support and technical development work that advanced the team's research capabilities and experimental outcomes.

VOLUNTEER & SOCIAL IMPACT

SCHEMATICS ITS | Surabaya, Jawa Timur
Staff NLC (National Logic Competition) | May, 2026 - Present

- Supported the development and verification process for NLC competition questions, ensuring question quality and accuracy for participants while maintaining competition standards and educational objectives.
- Created challenging problems designed to develop critical thinking skills among high school students, contributing to educational advancement and logical reasoning development for competition participants.
- Provided creative input during question development, review processes, and verification stages, helping maintain high-quality competition materials that effectively assess student analytical capabilities and problem-solving skills.

UKM Robotika ITS | Surabaya, Jawa Timur
Staff, Media Information Division | Mar, 2026 - Present

- Developed the student organization's website and researched sustainable website architecture alternatives that could support long-term functionality and efficient maintenance for organizational communication needs.
- Contributed innovative website feature ideas that enhanced productivity and operational efficiency for UKM members, supporting improved workflow and communication within the robotics community.
- Collaborated with division team members to implement digital communication strategies that strengthened organizational outreach, member engagement, and external visibility for robotics activities and events.

Organisasi Siswa Intra Sekolah | Jakarta Selatan, DKI Jakarta
Member, Information Technology Division | Sep, 2022 - Aug, 2023

- Organized and sorted OSIS documents efficiently within one week, ensuring proper documentation management and supporting organizational record-keeping for improved administrative workflow and accessibility.
- Provided livestreaming technical support for OSIS activities across three platforms including TikTok, YouTube, and Instagram, enabling broader community engagement and real-time event participation for school stakeholders.
- Supported digital communication initiatives that enhanced school event visibility and community connection, contributing to improved information sharing and student engagement with organizational activities.
